

CALIBRATION SERVICES

Collins Aerospace provides a broad range of calibration and repair capabilities for manufacturing and process equipment. Our instrument capabilities are as follows:

AC Current Sources	Linear Measuring Devices
AC Voltage Dividers	Logic Analyzers
AC Voltage Sources (Standards)	Manometers
Air Data Test Sets	Megohmmeters
Ammeter	Micrometers
Ammeter, Clamp-On	Multifunction Meter Calibrators
Attenuators	Ohmmeters
Balances, Analytical	Oscilloscopes
Balances, Counting	Ovens
Battery Charger/Analyzers	Parts Counter
Bonding Meters/Testers	Phase Instruments
Calipers	Phase Lock System
Communication Service Monitors	Power Meters
Communications Analyzers	Power Supplies
Crimpers	Pulse Generators
Current Probes	Ratio Transformers
Current Shunts	Resistance Bridges
CV Plotters	Resistance Meters
Data Acquisition Systems	Scopes
Data loggers	Signal Conditioner
DC Current Sources	Signal Generators
DC Potentiometers	Soldering Iron Calibrators
DC Reference Divider	Soldering Iron Station
DC Voltage Dividers	Sweep Generators
DC Voltage Sources (Standards)	Synchros/Resolvers
Decade Boxes	TCAS Test Set
Delay Lines	Thermocouple Meters
Differential Voltmeters	Timing Devices
Digital Multimeters to 6 1/2 Digits	Torque Analyzer
Digital Multimeters greater than 6 1/2 Digits	Torque Driver
Directional Couplers	Torque Screwdriver
Distortion Analyzers	Torque Testers
DME/Transponder Test Sets	Torque Wrenches
Dynamic Signal Analyzers	Transponder Test Sets
Electronic Simulation, Resistance Substituting, 4-20mA	Turbine Temperature, Indication Testers
ESD Monitors/Meters/Sensors	Vacuum Gauges
Frequency Counters	Vacuum Pump
Frequency Standard	Vector Volt Meters
Function Generators	VOM
Generators	VOR/ILS Test Set
Heater Block	Watt Meters
High Pot Tester	Wave Analyzers
High Voltage Devices	Wave Guides
Insulation Breakdown Testers	Waveform Monitors
LCR Meters	Weather Rader Test Sets
Level Transmitters	ZIFOR (VOR Radial Bearing)
