

Latest capability. Greatest value. One source.

Dassault Falcon 2000/EX UPGRADE

**Rockwell
Collins**

Building trust every day

Cleared and connected To all your destinations

Rockwell Collins' essential connection to your Falcon began with the aircraft's inception. Today, our Falcon 2000/EX upgrade offerings and world-class support will keep your aircraft – and you – flying more capably than ever. All from one trusted source.

Enjoy the advantages
of one source

CONNECTIVITY

AVIONICS

CABIN

SERVICES

Stay connected, engaged and informed

Everything you need to enhance performance across your aircraft

A full range of connectivity options empowers passengers and crew members to be as productive in the sky as they are on the ground. And because one company delivers them all, you can depend on a seamless solution – along with unmatched expertise for all your aircraft's connectivity needs.

Connectivity infrastructure

The hardware that makes aircraft connectivity work.

- Radios: Iridium®, Inmarsat SATCOM, high-frequency (HF), VHF
- Airborne Data Router, with optional two channels of Iridium
- Antennas: Tailwind®, Ku/Ka Band*

Flight-deck connectivity services

Options that can enhance your aircraft's safety, efficiency and mandate compliance.

- Iridium
- Inmarsat
- VHF and HF data link/ACARS

Cabin connectivity services

Reliable, fast, global data delivery for passengers and crews.

- Inmarsat Jet ConneX
- Inmarsat SwiftBroadband
- ViaSat® Mobile Broadband Service
- Iridium voice and fax

*Contact your Dassault Falcon representative for Ka Band antenna availability

AVIONICS

Pro Line 21™

The flight deck that takes you to more places

As a Falcon 2000/EX owner, you've already experienced the benefits from the outstanding baseline features of your Pro Line 4™ flight deck. **Upgrading to Pro Line 21 opens new options*** that can make every flight more safe, efficient and pleasurable.

To learn more about avionics baseline features, go to www.rockwellcollins.com/falcon2000

ADS-B Out	Equip now; be ready for domestic and global DO-260B mandates required by 2019.
FANS 1/A	Access any location that requires Future Air Navigation System 1/A. Get your clearances faster and be the first off the ground.
LPV	Fly to more destinations with more runway choices. Access lower approach minimums to get below the weather and establish visual contact with the runway.
Synthetic Vision System	See and know where terrain is in all conditions. Enjoy extra levels of safety and situational awareness when flying into mountainous regions and challenging airports.
Aircraft Information Manager (AIM)	AIM gives you maximum flexibility to remotely update and manage your navigation database, charts and MDC fault codes while your aircraft is away.
TCAS 7.1	Meet the European mandate while enhancing safety with updated resolution advisories and escape guidance.
DBU-5010E	Faster, simpler navigation database and IFIS chart updating using a simple USB stick. Also puts you in line for an AIM IMS-3500 installation.

Dynamic ways to engage

Tailor your experience for work or play

Our Venue™ cabin management system offers you new ways to make the most of your flight time. Optional services and products bring the familiar conveniences of your preferred lifestyle on board. Work or relax throughout your journey, just as you do at home.

Venue cabin management system

Settle into your cabin on every flight with a rich variety of content choices. Venue delivers with superb, future-focused design and proven reliability.

Stage™ content service

Stream Hollywood movies and TV shows, catch up on real-time news, sports and weather*, play games and see destination information – all on your own personal devices.

Tailwind TV

View any televised sporting event, news or show in real time during your flight. Take the comfort and convenience of your living room into your cabin.

Airshow® moving maps

Explore Airshow moving maps from your personal iOS and Android™ devices with Airshow Mobile. Custom aircraft, paint schemes, logos, languages and more can make your Airshow experience one of a kind.

Cabin connectivity

Choose from a breadth of cabin connectivity options to meet your phone, fax, voice and data needs, including Inmarsat Jet ConneX and SwiftBroadband, ViaSat and Iridium. Combine these with our Airborne Data Router, a multitude of service enhancement applications and our global support to receive an unprecedented cabin experience.

*Requires connectivity for real-time news, sports and weather feeds

Streamline every trip, start to finish

World-class service and support anywhere, anytime, every time

From the moment you decide on a destination, Rockwell Collins is there with the support that helps make any trip a pleasure to take. Our services and tools are designed to smooth every detail of every flight.

CASPSM

Corporate Aircraft Service Program (CASP) solutions provide Falcon 2000/EX operators with both CASP and CASP Elite services. These tailored solutions improve the operational availability of your aircraft at a predictable annual cost. With no pre-inspection or buy-in fees, the average customer saves 15 to 25 percent in maintenance costs.

International trip support

The tools you need to take the worry out of worldwide travel planning. Weather, fuel services, visa and passport confirmation, TSA waivers, APIS submission, aircraft and passenger security and much more.

FOS[®]

Flight Operations System

FOS gathers everything you need in one place – your scheduling, maintenance, International trip support tools and more – with rich features and no redundant data entry. The FOS Mobile app lets you access FOS tools and services from your iOS and Android™ devices.

Flight planning

Create and file electronic flight plans anywhere worldwide, using aircraft performance data and the latest atmospheric forecasts for the most precise fuel burns and time calculations. With our iPad® app, you'll always have up-to-date weather information and flight plans at your fingertips.
