

STAGE™ ON DEMAND

CONTENT STREAMING, WHEREVER YOU FLY

Entertainment, TV, movies, news, music and more

All VIPs want to feel their time in the air is well spent. That can mean staying up to date on the latest global news and financial information or relaxing after a successful meeting with a favorite movie or TV show. Every flight director and crew member wants a simpler, faster way to get quality, entertaining content on the aircraft.

Our Stage™ on demand is an entertainment solution that brings these capabilities to the business-jet cabin. Stage offers an experience similar to your home content provider, with a large content catalog. With Stage, you can enjoy the latest movies, shows, news and more on your preferred mobile devices and laptops – as well as your bulkhead display.

MOVIES AND TV SHOWS

Whether you want to catch up on the latest movies or watch your favorite TV shows, your in-flight content options (including HD) have never been more expansive. Stage is stocked with a wide variety of options to keep you entertained and informed throughout your flight.

We have content agreements with the major Hollywood studios for TV shows and movies, including 20th Century Fox, Warner Brothers and NBCUniversal. We also source from independent distributors such as Jaguar and Captive Entertainment for foreign films, classics and documentaries, as well as new releases.

ACCESSIBILITY AROUND THE GLOBE

All of the movies and TV shows in the Stage catalog have worldwide viewing rights, meaning there are no issues for globetrotting business jets.

KEY FEATURES AND BENEFITS

- Robust, easy-to-manage content catalog – designed specifically for the flight director or delegate
- Quick, easy content loading – including a smart sync app that loads just what's needed
- Wi-Fi® distribution – passengers will be able to access Stage content from their Android™ and iOS personal devices and other devices using the Chrome browser
- Customized content profiles – lets you create different profiles for different types of flights
- Subscription simplicity – trial our Platinum Executive Package with a complimentary six-month offer

Every element designed to put you front and center

With Stage, every seat in your aircraft cabin becomes the finest seat in the house. To make your Stage experience truly remarkable, we've left nothing out:

INVITING, INTUITIVE DESIGN

As you browse selections on the content offerings menu, you'll note the thoughtful technology design that creates an enjoyable user experience from start to finish. The way Stage presents information to you will make it feel as comfortable as your home system – made airworthy.

RICHEST RANGE AND DEPTH OF CONTENT

Your choices for how you'd like to spend flight time have never been more expansive. Select movies from major entertainment studios as well as independents. Get caught up on your favorite TV shows. Or, opt to load your own content such as corporate videos, vacation videos and music. All this and more is waiting for you on board.

ACCESSIBILITY FOR THE LATEST MOVIES

In addition to main content offerings, Stage also gives you special access to the widest range of movies Hollywood has to offer. If you missed it in the theater, you can still see it on Stage.

REAL-TIME WORLD UPDATES

Stay in touch with news feeds, headlines, stocks and other financial information, sports and weather.

SMOOTH DELIVERY

Stage streams your preferred content to your personal mobile device and laptop with elegant efficiency

IN-FLIGHT INTERNET NOT REQUIRED

Movies, TV and all Stage entertainment options are downloaded prior to takeoff and stored on the aircraft. Because internet access is not required, Stage saves you the cost of in-flight internet, content downloading and data overages.

OPERATOR CONTENT

With Stage, you can use a variety of your own content in two ways. You can play your content directly from a USB drive without storing it in Stage or you can store your content in the Operator Content folder.

Carry-on and play on your player

Store and play through Stage UI
