STC Information Sheet

FAA STC: ST02896AT

Master Drawing List: 2-23982-001

Approved Model List: 2-23982-002

Aircraft: McDonnell Douglas DC-10-30/MD-11 Series

Configuration: 7

DC-10/MD-11 Series –Kannad 406 AF Emergency Locator Transmitter (ELT) Installation

Mod. Order: 2-26963-810

AFMS: N/A

Master Kit List: 2-26963-811

ICA: 2-23982-905

Summary:

The Kannad 406 AF Emergency Locator Transmitter (ELT) system consists of the ELT transmitter installed in the aft overhead cabin adjacent to the ELT antenna on the upper aft fuselage. Connected to the ELT transmitter is a programming dongle. Finally, a Remote Control Panel is installed in the cockpit to control the ELT system.

Notes:

This is an Approved Model List (AML) STC that includes various aircraft types.
