STC Information Sheet

FAA STC: ST02994AT

Master Drawing List: 2-18476-001

Aircraft: Airbus A300B4/F4 -600

Configuration: 1

MK V EGPWS Installation

Mod. Order: 2-18476-803

AFMS: 2-18476-908

Master Kit List: 2-18476-804

ICA: 2-18476-906

Summary:

The Enhanced Ground Proximity Warning System (EGPWS) installation entails installation of a MK V Enhanced Ground Proximity Warning Computer (EGPWC) in place of the existing Ground Proximity Warning Computer (GPWC), installation of two Terrain Display Selection switch/lights, installation of one guarded Terrain Override/INOP switch/light, and installation of associated relays and additional signal wiring.

Contact EMTEQ for specific options, i.e. altitude callouts, display type, position source, audio menu, peaks/obstacles option, etc., for this specific configuration.

Notes:

* or later TSO approved.

Material List

QTY	Part Number	Description	Source/MFGR
1	965-0976-020-214-214*	MK V EGPWC	Honeywell
1	S67-1575-133	Antenna, GPS	Sensor Systems
2	LED-41-11-BB-32841	Switch/light, TERR/ON	Vivisun
1	LED-42-14-BB-32842	Switch/light, OVRD/INOP	Vivisun
2	LED-41-11-BB-33133	Switch/light, GPWS/GPWS	Vivisun
1	A300-EGPWS-900	Kit, MK V EGPWS	B/E Aerospace
