

ESCROW OF SELLER INTELLECTUAL PROPERTY

TC-014 (03/17)

- A. The requirements set forth in this Purchase Order Attachment shall not be construed to limit, or relieve Seller of any of, Seller's obligations set forth or incorporated into Buyer's Purchase Order of which this Purchase Order Attachment is a part thereof.
- B. Section 9 of the Raytheon Company General Terms and Conditions of Purchase applicable to Buyer's Purchase Order, either TC-001 General Terms and Conditions of Purchase or TC-004 International General Terms and Conditions of Purchase, as set out in Buyer's Purchase Order, is hereby deleted and replaced by the following:

9. Proprietary Rights

- (a) Unless otherwise expressly agreed in a contemporaneous or subsequent writing to the contrary or otherwise expressly set forth in this Purchase Order and subject to Paragraph 9(d) below, all specifications, information, data, drawings, software and other items supplied to Buyer by Seller shall be disclosed to Buyer on a non-proprietary basis and may be used and/or disclosed by Buyer without restriction.
- (b) Unless otherwise expressly agreed in a contemporaneous or subsequent writing to the contrary or otherwise expressly set forth in this Purchase Order and subject to Paragraph 9(d) below, all specifications, information, data, drawings, software and other items which are (i) supplied to Seller by Buyer or (ii) obtained or developed by Seller in the performance of this Purchase Order or paid for by Buyer shall be proprietary to Buyer, shall be used only for purposes of providing goods or services to Buyer pursuant to this Purchase Order, and shall not be disclosed to any third party without Buyer's express written consent. All such items supplied by Buyer or obtained by Seller in performance of this Purchase Order or paid for by Buyer shall be promptly provided to Buyer on request or upon completion of this Purchase Order.
- (c) Unless otherwise expressly agreed in a contemporaneous or subsequent writing to the contrary or otherwise expressly set forth in this Purchase Order and subject to Paragraph 9(d) below, any invention or intellectual property first made or conceived by Seller in the performance of this Purchase Order or which is derived from or based on the use of information supplied by Buyer shall be considered to be the property of Buyer; and Seller shall execute such documents necessary to perfect Buyer's title thereto. Unless otherwise expressly agreed in a contemporaneous or subsequent writing to the contrary or otherwise expressly set forth in this Purchase Order and subject to Paragraph 9(d) below, any work performed pursuant to this Purchase Order which includes any copyright interest shall be considered a "work made for hire". Subject to Paragraph 9(d) below, to the extent any of such works do not qualify as a "work made for hire", Seller hereby assigns to Buyer all its intellectual property rights, including its copyright rights, in such works effective immediately upon creation of such works, including when they are first fixed in a tangible medium.
- (d) Applicable U.S. Government Procurement Regulations incorporated into this Purchase Order shall, when applicable, take precedence over any conflicting provision of this Section 9 to the extent that such Regulations so require. The incorporation by reference of such U.S. Government Regulations dealing with subcontractors rights in Technical Data, subject inventions, copyrights, software and similar intellectual property are not intended to, and shall not, unless otherwise required by applicable law, obviate or modify any greater rights which Seller may have previously granted to Buyer pursuant to prior agreements between the Parties.
- (e) With respect to any applicable FAR and DFARS clauses incorporated into this Purchase Order

relating to license rights or restrictions in noncommercial technical data and noncommercial computer software and/or noncommercial computer software documentation, Seller grants to Buyer the right to use, disclose, transfer, copy, modify, combine, integrate or make derivative works of any such noncommercial technical data, noncommercial computer software and/or noncommercial computer software documentation delivered under this Purchase Order, to the extent necessary, and for such period as is required, for Buyer to complete its performance under the Buyer's U.S. Government Programs. If such computer software or computer software documentation is supplied by Seller to Buyer under this Purchase Order, and such computer software and computer software documentation is for future delivery to Buyer's customers, Buyer shall be permitted to do the following: (i) transfer the computer software, the computer software documentation and licenses granted to Buyer's customers for such period of time as Buyer's customers shall use such computer software or software documentation; (ii) modify the computer software or computer software documentation or combine it with other software subject to the proviso that those portions of the modified software which incorporate the original software are subject to the same license rights or restrictions as the original software; and (iii) grant access to the use of the computer software and computer software documentation to Buyer's affiliates, consultants, subcontractors, team members, customers, and similar parties and to their respective employees in connection with Buyer's and Buyer's customer's authorized uses thereof. Such access is provided on the condition that prior to such access all such parties have suitable obligations in place protecting Seller's rights in the computer software or computer software documentation which are in substance consistent with the provisions of this Purchase Order.

- (f) At Buyer's option, for any goods furnished by Seller, including products resulting from any services supplied hereunder, the Parties shall execute an intellectual property escrow agreement in customary form with a third party escrow agent, or amend any applicable license granting rights to Seller's intellectual property, to facilitate the placement into escrow, of a data package relating to the design of the goods supplied hereunder, which shall be made available to Buyer in the event of Buyer's reasonable determination that there is a realized or imminent disruption to the Seller's production or delivery of the goods to Buyer or a termination of this Purchase Order due to Seller's default. Buyer shall reimburse Seller for the costs incurred by Seller in connection with the escrow of such data package.
