

Registered Apprenticeships: Strengthening The Future Workforce

Collin College and Raytheon Intelligence & Space are joining forces as part of the U.S. Department of Labor Registered Apprenticeship program to develop skilled employees through an advanced manufacturing consortium. This paid manufacturing apprenticeship will provide the following opportunities for businesses and future workers:

Benefits for Businesses:

- Skilled employees
- Higher productivity
- Greater employee retention
- Reduced turnover costs
- Customized training
- Stronger future in manufacturing

Benefits for Workers:

- Professional development
- Higher wages
- Career growth
- Student discounts
- Industry-recognized credential
- Mentorship

What Is An Apprenticeship?

Apprenticeships are industry-driven, high-quality career pathways in which employers can develop and prepare their future workforce. Career seekers can gain expert knowledge and on-the-job training while earning an income and portable nationally-recognized credentials.
