

Job Applicant Privacy Notice

Raytheon Technologies Corporation and its subsidiaries and affiliates (collectively, “RTX”) are responsible for the privacy of its online job application and recruiting systems and any information that an individual may provide in the course of pursuing employment opportunities with RTX. RTX has different systems for receiving and reviewing job applications in different countries. This Job Applicant Privacy Notice covers both the electronic systems that RTX has implemented for job applications and the processes that some locations may use that do not involve an online system. For both approaches, RTX has implemented technical, administrative, and physical measures to safeguard any personal information that we may collect.

RTX’s online job application and recruiting systems, including the Careers website, are used for recruiting, to allow individuals to apply for employment with RTX, and to ensure that RTX complies with applicable legal and regulatory requirements in receiving employment applications. These systems are intended for visitors to review, and possibly apply for, RTX employment opportunities. Do not use RTX’s online job application and recruiting systems for any other purpose.

With limited exceptions, RTX only accepts applications from individuals who are at least 18 years of age. If you are under the age of 18, do not provide RTX with your personal information for purposes of applying for a job unless you are directed otherwise.

This Notice may be modified from time to time by posting an update. We encourage you to review this Notice on a regular basis for any changes.

What personal information might RTX collect?

To review postings on RTX’s job online application systems, communicate with RTX about job openings, and apply for a job with RTX, you will be asked to provide your personal information. With variation in certain countries, where some of these data elements may not be requested or may be requested once your employment is confirmed or starts, the personal information that you may be asked to provide includes:

- Name
- Contact information, including home address, home telephone, and email address
- Date of Birth
- Government identification document or number, including a drivers’ license
- Work history
- Education
- Resume or CV and/or a cover letter, including any information you provide in those documents
- Citizenship and/or permanent legal residence
- Eligibility to work, including documentation of immigration status

- Interest in employment opportunities
- Job specific questions that relate to the fitness of a candidate for a particular job
- References (if you provide information regarding other individuals, you must obtain their consent before providing the data to RTX)
- Information that we may be required by law to ask in certain countries, such as whether you have previously worked for a government agency, whether you are related to a government official, RTX officer, or a member of the RTX Board of Directors, or whether you are subject to a restrictive covenant with a current or former employer
- Information necessary for RTX to confirm that your employment would not create a conflict of interest or otherwise violate applicable law or regulation
- Information you provide to create security questions and answers used to validate your identity when you return to the website
- Where you learned about the job opening
- Any other information that you may choose to provide as part of your application
- Information provided by third party sites, if you apply for a job opening through a third-party site

In the United States and U.S. territories, RTX is required by law to invite individuals to self-identify their ethnicity, gender, veteran status, and disability information. That information is entirely voluntary and your decision to provide or withhold any of that information will not impact how we consider you for employment.

For certain jobs and in certain locations, you may be asked to have a medical examination, hearing or vision checks, drug testing, a background check, or a criminal history check. These will only be performed with your consent, but in certain circumstances, your offer of employment may be contingent on your successful completion of one or more of these checks. RTX does not perform criminal history checks where prohibited from doing so by law. RTX may confirm the information provided in your application, such as your references, driving license and record, education and job history, without seeking your additional consent.

If you access a RTX online job application system on a mobile device, the website will collect information necessary to communicate with your device and provide any customization that you may request. This information may include your device identification or number, your carrier, and your location.

In addition, RTX monitors user traffic patterns on its job application websites, including a user's domain name, browser type, date and time of access, and pages viewed. Our web servers collect the domain names but not the e-mail addresses of visitors. This information is collected in order to measure the number of visitors to our websites and to determine which areas of the website users find useful based upon the amount of traffic to particular areas. RTX uses this information to enhance users' experience and to better prepare content based on the user interests.

For certain positions, you may be required to provide additional information prior to hiring for RTX to establish that you have or are eligible to obtain a security clearance and/or global trade authorization.

How might RTX use the personal information it collects?

Any personal information collected may be used to:

- allow you to apply for employment with RTX and evaluate your application, including without limitation arranging for and conducting phone screening, interviews, and other applicable assessments
- invite you to apply for and consider you for other opportunities that may be or become available
- contact you with regard to an application or other opportunity or communicate changes
- validate reference checks, conduct criminal history and background checks as appropriate, and perform denied party screening
- facilitate your hiring and administer your employment, if you are hired
- comply with legal and regulatory requirements involving job applicants, which may include providing reports to government agencies
- provide you with opportunities to offer feedback on your experience, such as through a survey
- conduct analysis on applicant trends to understand and improve RTX's recruitment practices
- verify your identity to ensure security for one of the other purposes listed here
- ensure or enhance the security of RTX's electronic systems
- protect against fraud
- conduct internal investigations and comply with legal obligations

With whom does RTX share the personal information it collects?

RTX will not sell or otherwise share your personal information outside the RTX family of companies, except to:

- service providers RTX has retained to perform services on our behalf. RTX will only share your personal information with service providers with whom RTX has contractually restricted from using or disclosing the information except as necessary to perform services on our behalf or to comply with legal requirements
- comply with legal obligations, including if we are required to do so by law, in response to a legitimate legal request from law enforcement authorities or other government regulators
- investigate suspected or actual illegal activity
- prevent physical harm or financial loss
- support the sale or transfer of all or a portion of our business or assets (including through bankruptcy)

RTX has several service providers that assist with its online job application systems. These providers manage the websites, provide back-up storage, assist with job postings, enable video interviews, and facilitate recruitment of candidates. RTX may also use other service providers, but any service provider utilized will be for the purposes identified in this Notice and will provide services under a contract as mentioned above.

Where does RTX store your personal information?

Because RTX is a global company with locations in many different countries, we may transfer your information from one legal entity to another or from one country to another in order to accomplish the purposes listed above. These countries include, at a minimum, the United States, many of the member states of the European Union, Canada, and other countries, including some in Asia. We will transfer your personal information consistent with applicable legal requirements and only to the extent necessary for the purposes set forth above.

RTX relies on available legal mechanisms to enable the legal transfer of personal information across borders. To the extent that RTX relies on the standard contractual clauses (also called the model clauses) or Binding Corporate Rules to authorize transfer, RTX will comply with those requirements, including where there may be a conflict between those requirements and this Notice. To read RTX's Binding Corporate Rules, please visit <https://www.rtx.com/privacy/binding-corporate-rules>.

How long does RTX retain your personal information?

For all positions in the United States or that support a US government contract, RTX is required to retain your application information for a minimum of three years. That period of time may be extended where required by law, policy, administrative or judicial activity and audit obligations. If you apply for a job in the US but you reside outside the US, please be aware that this retention requirement applies to you as well and we will be unable to grant deletion requests for US job applications within this retention period.

Otherwise, RTX will retain your information as follows:

Profile information: For information that you enter as part of your profile in the RTX online job applicant tool, we retain that information for three years from last activity. We will make an effort to warn you ahead of time that your profile is going to be deleted, but we may be prevented from doing so. As a result, if you want to maintain your account, be sure to update it periodically.

Unsuccessful applications: For unsuccessful candidates, RTX will retain your application information for a period of time as defined by applicable, local law. For more information on that period, please email RTXrecruiting@RTX.com.

Successful applications: For successful candidates, RTX retains your information so that it is able to employ you. The information from your application is used for employment purposes and handled according to the [Employee Privacy Notice](#).

In all instances, retention requirements and purging of personal information may be impacted by law or regulation, court, administrative or arbitration proceeding, or an audit requirement. In each of these instances, applicable obligations may require RTX to retain data in specific circumstances for longer than indicated in this notice.

If you would like to have your personal information updated, corrected or deleted, email RTXrecruiting@RTX.com. RTX will review your request and promptly respond but may be unable to provide the relief you seek as a result of contrary legal obligations or rights. With regard to requests for deletion in particular, unless applicable law or regulation, court, administrative or arbitration proceeding, or an audit requirement prevents deletion, RTX will delete your personal information within a reasonable period of time and keep only a log of your name, the date of your deletion request, the job(s) for which you applied, and the country from which you applied. RTX retains this information to demonstrate that it has complied with your request.

Beyond the retention periods and for applicants who have requested deletion, RTX may retain anonymous data for statistical purposes to understand and improve its recruitment practices.

What choices do you have about how RTX uses your personal information?

You have the choice about whether or not to provide RTX with your personal information, but if you choose not to provide your information, RTX will be unable to consider you for a position. RTX asks only for information that it requires to evaluate you for a position to which you may apply, to authenticate you when you log into our online application systems, and as may be required by applicable law.

How does RTX use cookies or other tracking technologies?

Cookies are small text files sent to and stored on users' computers that allow websites to recognize repeat users, facilitate users' access to websites, and allow websites to compile aggregate data that will allow content improvements. Cookies do not damage users' computers or files. Web beacons are transparent graphic images, often just the size of a single pixel, that allow websites to track activity on the site.

RTX uses both cookies and web beacons on the Careers website and other RTX job posting sites to collect aggregate and anonymous usage data so that RTX can improve the functionality of the website. RTX may also use cookies to enhance your user experience. For example, the website may permit you to select a language and/or geographic location preference, which will be stored for future visits.

These job posting websites also use cookies from RTX's service providers. These cookies contain a session ID to manage your activity during a session. Our service

providers also use cookies to determine whether you navigated to this website from an external one to track the effectiveness of external postings.

If you do not want cookies to be accessible by this or any other RTX website, you should adjust the settings on your browser program to deny or disable the use of cookies. You can find additional information on cookies and web beacons at <http://www.allaboutcookies.org/>.

What should you understand about the third party links that may appear on this website?

In some instances, RTX may provide links to non-RTX controlled websites. However, RTX does not control such third-party websites, and cannot be responsible for the content or the privacy practices employed by other websites. If you apply to a job with RTX through a third-party site, the terms of that site's privacy notice would also apply.

What additional information should specific users know?

Job Applicants from California: Annually California residents may request and obtain information that RTX shared with other businesses for their own direct marketing use within the prior calendar year (as defined by California's "Shine the Light Law"). Because RTX does not sell or share personal information of job applicants with third parties for their direct marketing efforts, this law does not apply to personal information collected from job applicants.

Job Applicants from the EU and other countries with data privacy laws: RTX is the data controller for your job applicant personal information. If you would like a list of the particular legal entity (or entities) that act as the data controller in your case, please email RTXrecruiting@RTX.com. Please know that you have the right to lodge a complaint with your national or state data protection authority, which may also be known as a supervisory authority. You also have the right to: (i) request access to and correction or erasure of your personal information; (ii) seek restrictions on; or (iii) object to the processing of certain personal information, and seek data portability under certain circumstances. To contact RTX about a request to access, correct, erase, object or seek restrictions or portability, please email RTXrecruiting@RTX.com.

Job Applicants from the US: RTX collects Social Security Numbers where required by law, such as for tax and payroll purposes for its employees. When RTX collects and/or uses Social Security Numbers, RTX will take proper care by protecting confidentiality, limiting access on a need-to-know basis, and implementing appropriate technical safeguards and retention plans.

Job Applicants from Australia: Each Raytheon Technologies Corporation entity in Australia ("RTX Australia subsidiary") is an "APP entity" regulated by the provisions of the Privacy Act 1988 (Commonwealth of Australia) ("Australian Privacy Act").

References in this notice to RTX also relate to RTX Australia subsidiaries in relation to all acts and practices of any of them in collection, handling, and disclosure of personal information about individuals in Australia. Where an RTX Australia subsidiary discloses personal information about individuals in Australia to an overseas recipient for any of the reasons described in this notice, it will take reasonable steps to ensure that the overseas recipient does not breach the Australian Privacy Act in relation to that information. Individuals in Australia may e-mail privacy.compliance@rtx.com to access, correct or update your personal information, if you have questions about RTX's privacy practices in general, or if you wish to make a complaint. If we take more than 30 days to respond or if you are dissatisfied with the outcome, you can make a complaint to the Privacy Commission in the Office of the Australian Information Commissioner by post at GPO Box 5218, Sydney NSW 2001, by telephone at 1300 363 992, or by email at enquiries@oaic.gov.au.

How can you correct or change your personal information?

To change your information on one of RTX's online job application systems, you can log into your profile and make any corrections or deletions required. If you have applied to a job by another means (such as email), contact your local recruiting contact. To report problems with the Careers website or to pose questions or concerns, email RTXrecruiting@RTX.com.

How can you contact RTX?

If you have any comments or questions or if there are other things we can do to maximize the value of RTX's job posting websites or systems, please email RTXrecruiting@RTX.com. If you have questions about RTX's privacy practices, please email privacy.compliance@RTX.com. If you would like to contact the Data Protection Officer assigned to a particular RTX company, email privacy.compliance@RTX.com and we will direct your email to the appropriate Data Protection Officer (where applicable).
